Claypot Restaurant 31 Jan 11

47 of us enjoyed a Greek banquet at The Claypot Gordon last Monday.

Claypot (Cont'd)

Yes, that's Roger. Part of his preparation for kayaking in Tassie I suspect.

Now, don't go jumping to conclusions.

...and a little bit of business to discuss

The less said about this happy snap the better!

Rotary Foundation Thought for The Week

This week's Rotary Foundation Thought is about a **matching grant** that has helped turn waste into profit for **Philippine coconut farmers**.

With the aid of a Foundation matching grant, the Livelihood Project gives local farmers the supplies and labour to turn wasted coconut husks into "*coconets*", which have environmental and economic benefits for the community. The project increased employment levels for women and out of school youth while reviving the local coconut industry. Coconut husks, which are a huge source of agricultural waste, are now used to make "*coconets*" which help provide an environmentally friendly solution to land erosion and degradation. Another husk by-product, coconut dust is used as a soil enhancer and organic fertilizer. This is an example of how The Rotary Foundation is helping smaller communities throughout the world and is ensuring that economic growth reaches the poorer communities.
