Happy days

[www.kuringgairotary.org.au](http://www.kuringgairotary.org.au) The club meets every Monday 6.30pm at West Pymble Bowling Club

## Bobbin Head Cycle Classic

A special Koongga publication was released covering our planned Bobbin Head Cycle Classic.

Since the meeting Lou Coenen has produced a significant Marketing Document which he and Peter Kipps are converting to a Marketing Plan. In addition Graham Timms produced a backup document.

Lou attended the BHCC meeting last Thursday and present his document. Lou presented well and his document was appreciated and adopted.

Ross Egan sent details of a potential Sponsor. Well done Ross.

There will be regular BHCC updates each week.

Tony presenting BHCC to our Club

## Past Treasurers

Does any member have a list of Past Treasurers which would be used to post to our WEB?

## Apologies for Meetings

Our WEB system automatically closes Apologies and sends a list to WPBC at 3pm every Monday.

If you wish to apologise for a meeting you must do so before 3pm on Monday

## Cirque de l'échange

# Cirque de l'échange

The Department of Physics and Astronomy at Macquarie University takes great pleasure in inviting you to a joint lecture by two internationally-renowned laser scientists Professor Brian Orr and Associate Professor Michael Withford: Lasers - from the laboratory to our community. After the talk you are invited to meet laser researchers from Macquarie University and tour our laser laboratories.

Since their discovery fifty years ago, lasers have developed from being a scientific curiosity, declared at the time to be “a solution looking for a problem”, to something that has important applications in many areas such as engineering, surveying, communications, computers, medicine and even rock concerts!

At Macquarie University, we have been at the forefront of laser science and technology, and their related optical and photonic applications. Our talk will give you an idea of some of the things that we do behind the “Laser Safety” signs on our laboratory doors, and how our research leads to some real-world outcomes that can be of benefit to our community at large.

When: Wednesday 11th May, 2011  
Time: 6.00 pm - 9.00 pm  
Where: Building C10A, Level 3 (above food hall), Macquarie University, North Ryde, (see N20 on campus map)  
Free parking: from 5.30 pm at N3 car park (opposite Sport and Aquatic Centre). Obtain a free parking ticket from the ticket machine by pressing ‘press for ticket’ button. To avoid a fine, clearly display ticket on driver’s side dashboard.  
RSVP: Please register your attendance to [physout@mq.edu.au](mailto:physout@mq.edu.au)  
This a free event and light refreshments will be available

For information on this and other events celebrating the 50th Anniversary of the laser go to: [www.physics.mq.edu.au/laserfestsydney](http://www.physics.mq.edu.au/laserfestsydney)

*This invitation has been emailed to you in the interest of sustainability.*

### Rotary Foundation Thought for The Week

. 39) This week's Rotary Foundation Thought is about Ambassadorial Scholar Alumni. Rotary Foundation Ambassadorial Scholar 2009-10, South African Damian Lahoud is deeply concerned about the welfare of AIDS orphans in his country.

"The number is steadily rising, and within a few short years there will be close to three million," says Lahoud. "The difficult task of raising these children has fallen to the goGoGetters [a South African term for grandmother]. These goGos might not be related to the children, but they have taken it upon themselves to look after [them], most taking care of up to 20 at a time. They provide protection and support and encourage these children to go to school."

The plight of AIDS orphans led Lahoud to carry out a fundraising project during his scholarship year at Linköping University in Sweden. The project's main goals were to increase awareness of AIDS in South Africa and the goGoGetters' role and to raise funds to help his sponsor, the Rotary Club of Knysna, support goGoGetters in the local community.

The university's students have a tradition of wearing overalls that display patches of various gatherings they have attended. Lahoud's fundraiser netted US\$6,000 through the sale of special AIDS awareness "ImPATCHits" for about \$2.75 each.

"I spent time on campus selling patches and promoting the project at Rotary clubs throughout Sweden, selling African beadwork ribbons to Rotarians," Lahoud says. "A single patch can go a long way by helping one child for one month!"

### Rotary Acronyms

<b>PHF Sustaining Member</b>	Recognises financial contributions to the Foundation in increments - Recognises individuals who have made contributions in instalments up to US\$1000
<b>PHF with Sapphire</b>	Supplementary recognition to above PHF - A special recognition gold pin with blue stone to represent additional financial contribution or meritorious service
