Meeting Apology

Please use the club web-site **before 3 pm** on meeting day to apologise or add a guest, or you will be required to reimburse the club for your meal cost.

<http://www.kuringgairotary.org.au>

www.kuringgairotary.org.au The club meets every Monday 6.30pm at West Pymble Bowling Club

Induction - Please be there

Tomorrow night President Carolyn will be Induction Graham Maslen. Please be there for this important event.

This Week

Diana Hanks will be talking about her project to encourage indigenous reading.

Last Week

.Macquarie University Library

Maxine Brodie

Macquarie University Library

We are fortunate that President Carolyn arranged this visit, it was very interesting.

Maxine Brodie addressed the gathering.

Why Macquarie built a new Library. The Library was in the geographical centre of Campus

Students have risen to 34,000 and about 1,000 of these are offshore

Macquarie is a very multi discipline University. Some staff members have not used a paper book for 20 years, some are all electronic and some are all paper

The biggest challenge in a Library is a distribution network. There is so much information it is easy to drown. The big role is to test the accuracy of the source of the information. If there is a Google why do you need a library?

Students like a library because it is a good place to study. They also see other students and see other students struggle.

Students see it as a safe place to be but is not a good idea to leave your laptop.

The old library had 1100 seats and this has double.

The new library has 10,000 visitors per day

The project total cost was \$97m and the building cost was \$75m

The goal was to be in the top 8 in Australia, and they are now #14 in the World.

The culture of the Chancellor is to have a good library. The old Library did not have windows therefore not much light. With the change in education students need to work in Groups.

The Library is the centre of activity in the Campus.

Attendance Sheet for up-coming Functions

Please see Caroline for the Attendance sheet to nominate for these functions:

Sat 21 Apr - Trivia Night

Sat 26 May - Dinner for 8 (host or attend)

Macquarie University Library

The new library is the same size as the old 11,000 square metres, but they have three times the seating capacity.

A 21ST CENTURY LEARNING ENVIRONMENT

Macquarie is a university on the move, on the way to becoming one of the top 200 research universities in the world. This new building will symbolise the university aspirations and reputation. It will provide a 21st Century learning and research environment that facilitates vital interactions between people and knowledge.

The native parklands of the campus have inspired an innovative design, which aims to set impressive sustainability standards.

This website is your gateway to everything exciting about the planning, construction and celebration of the new Library. Visit regularly for updates and take a moment to contribute to the blog as your input is fundamental to the success of this project.

Taking the vision for a new building through to its fruition is a significant project. Here are some interesting facts about the new building.

TOTAL PROJECT VALUE - AUS \$94m

BUILDING FOOTPRINT - 6,770sqm

GROSS FLOOR AREA - 17,997sqm on 5 levels

EXTERIOR MATERIALS glass and metal

SPECIAL FEATURES

Australia's first automated book storage and retrieval system (ASRS)

exhibition space at the entrance, including the Lachlan Macquarie Room

ENVIRONMENTAL IMPACT

working towards a Green Star Rating

emphasis on sustainability

SEATING

capacity for 3,000 seats

COLLECTION

Automated Storage and Retrieval System (ASRS) storing 80% of collection over the life of the building. Open shelves storing 20% of collection.

Using the Automated Retrieval Collection (ARC)

Part of the Library's collection is stored in an automated storage and retrieval system (ASRS).

This collection is known as the Automated Retrieval Collection (ARC) and items in this collection have their location identified in the Library's online catalogue as:

"Automated Retrieval Collection – place a request"

How do I place a request?

- Place a request through the Library's catalogue from anywhere you can access the Internet.

•

Macquarie University Library

In the item's catalogue record you will see an action menu on the right hand side. Use the Place a Hold/Closed Collection Request/Automated Retrieval link to request your item.

- You will need your staff/student ID number to complete this request.

Where do I collect the item?

Collect your requested item from the Resource Collection Point on Level 2 of the Library (C3C)

How long will it take?

Items are available within half an hour from the time of your request.

Will I be notified?

You will not be notified when an item is available.

How long will my item be held for me?

Items from the Automated Retrieval Collection will be held at the Resource Collection Point for three working days.

Where do I return the item?

Return the item to the return chutes at the Library entrance.

A quiet study area

Governor Macquarie Historical Room

Macquarie University Library

The automatic retrieval system was a highlight of the visit

It currently holds 900.000 books and has capacity to double the storage.

There are 4 bays, 4 stories high containing 40 rows of containers, approx. 30 metres deep. Each bay has metal containers with 8 divider spaces. When the operator requests a book the "fetch" system selects the metal container and positions it in front of the operator, who extracts the book, presses a button and the container is returned to its position.

A metal container full of books for the operator to select

One of the rows of metal containers

Remainder of 2011-2012 Calendar

DATE	Speaker (BM = Board meeting)
Monday 12 March	Diana Hanks - "Tales from a Dilly Bag"
16-18 Mar	Conference
Monday 19 March	Tom Sweeney interesting people buried at Macquarie Park

Apologies & Guests	
<p>Members are booked in to attend every regular meeting of the Club, if you cannot attend a meeting or wish to book in a guest / partner please access the WEB at http://www.kuringgairotary.org.au before 3.00 pm on the day of the meeting. An apology for future meetings may also be entered. If you do not apologise for non-attendance the Club must pay for your meal and you will be asked to reimburse the Club.</p>	

Rotary Foundation Thought of the week
<p>35) This week's Rotary Foundation Thought is an inspiring quote from Paul Harris that can be assimilated to the challenge to eradicate Polio worldwide: <i>"I like to think that the pioneering days of Rotary have just begun. What's 40 years in the life of a great Movement? There are just as many new things to be done as ever there were. Rotary must simply continue to pioneer or be left in the rear of progress."</i> Over 67 years later, Paul Harris' words are just as meaningful. There are still so many things to achieve and promises to keep. If every Rotarian and Club contributes to The Rotary Foundation we can do a power of good in the world by further educating high achievers as Ambassadorial Scholars, by promoting Peace with Rotary World Peace Fellows and cultural Group Study Exchange programs. The Rotary Foundation funds and facilitates humanitarian projects and of course helps immunize the world's children through the PolioPlus Program. All of these programs help make for a more peaceful world. Remember what Paul Harris said, <i>"We must all strive to be PIONEERS on the long road to PEACE."</i></p>

Market roster

MARKET ROSTER	Sun 11 Mar	Sun 8 Apr	Sun 13 May	Sun 10 June
BANNERS				
SIGNS	Timms, Graham Hungerford, Geoff	Timms, Graham Hungerford, Geoff	Timms, Graham Egan Ross	Timms, Graham Hungerford Geoff
